

ANDREW TAPPER

Software Engineer

SUMMARY

Creative, detail-oriented software engineer with a deep interest in Blockchain Technology. Proven track record of creating and implementing successful front and back-end web applications. Looking to bring my skills to a tech company with global reach.

WORK EXPERIENCE

Software Engineer at 100devs, Remote | Los Angeles, CA

January 2022 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications
- Applied agile methodologies like SCRUM for project management

Recent Projects:

Magnus Media (Artist's Portfolio) – A unique online showcase of a collection of photos by photographer Vincent Magnus.

Ayesha Hair Salon (Business Web App) – A fully responsive, beautiful, and modern website for a contemporary full-service salon.

Cuisine Restaurant (Full-stack Web App) – Cuisine is a clean and professional, fully animated website for a local restaurant.

Other Projects: Genre Generator App with Every Noise At Once database utilization, Angry Parent Web App with NASA API integration, On-demand background color changer for Partnered Twitch streamer, and many more

Full Stack Web Developer at Tapper's Consulting | Minneapolis, MN

January 2022 — Present

Created full stack web applications and static websites for different clients across small and medium size businesses. Also, consulted on SEO and social media strategy. Some clients included:

Culminate – Built a creative online presence for a local music production company.

Mackenzie LaBine Hair – Developed a unique professional portfolio for a renowned hair stylist.

Team Lead at Eastside Food Co-op | Minneapolis, MN

December 2018 — December 2021

Coordinated department production & workflow by providing leadership, oversight and training of staff. Quickly adapted to different roles within the department, filling in wherever needed, providing increased stability of operations.

VOLUNTEERING

Free Geek Twin Cities | Minneapolis, MN

May 2022 — Present

Testing and fixing modern computers.
